

INTERPRETING CONVERSATIONS AND PERSONALITY:

WHY WHO WE ARE AFFECTS WHAT WE DO

**PRESENTED BY
REBECCA BUCHAN, MA, CI/CT, IIC**

Do you ever wonder what makes certain interpreters tick? The Myers Briggs Type Inventory (MBTI) is the most widely used and accurate personality assessment in the world. Participants will learn the MBTI basics and how it applies to themselves and their co-workers. Further exploration into the intersections between personality and the world of interpreting and professional dialogues will lead participants into a deeper understanding of how interpreters interact in both the Deaf and Interpreting communities. Discovering preferences and the reasons behind one's behavior and communication style helps to enhance professional interactions, while at the same time gaining insight into each other's personalities. This one day workshop will be on the basic foundations of the Myers Briggs Type Indicator and self-assessment. *

In conformance with local, state and federal statutes regarding disabilities, activities and facilities shall be accessible to all individuals. ICRID promotes a learning environment free from discrimination and bias, wherein participants demonstrate mutual respect for one another.**

*** ICRID is an approved RID CMP sponsor for RID Continuing Education Activities. This workshop offers .6 General Studies CEUs offered at the Some Knowledge Content level**
